Mark informed the faculty that work is being done to collaborate with Mayo for a Physician's Healthcare MBA. This program will not be limited to Mayo but we are working with them to design the program.

We are also working with Crowley Maritime to develop a research program and the holdup is trying to get a nondisclosure agreement in which both parties agree. Crowley has approached the college to help answer questions that they have not been able to address and they will work with Coggin students and faculty to answer them. Crowley will provide data for classroom projects for our students and faculty, and they are willing to pay faculty to work on the projects for >7 (s)12.1

ISM 4011– Move (Add to Major Electives, Remove from Major Requirements). ~~See~~ <sup>Placement</sup>  
above in major requirements section

two minors will be Entrepreneurship and Global

indicated that it probably comes as no surprise that our students need help in the
